

VEHICLES DISPLAYED IN THE EXPO

The following requirements will need to be met for any vehicle displays in the exhibit hall:

- All vehicle displays must be approved in advance by The Expo at WMCLV. If approved, licensee will be responsible for positioning the vehicle.
- Vehicles can be driven into the exhibit hall provided the tires are new or are wrapped.
- Fuel tank openings will need to be locked or sealed in an approved manner to prevent escape of vapors.
- Fuel tanks shall not contain more than one-quarter (1/4) their capacity or more than three (3) gallons of fuel, whichever is less.
- All battery cables must be disconnected and taped to avoid potential sparks.
- Vehicles shall not be moved during event hours and will remain off while freight doors are closed.
- Visqueen, or other forms of plastic or protective barrier must be placed underneath the engine to protect flooring.
- Electric and hybrid vehicles shall have their operating batteries disconnected whenever possible.
- External power is recommended for demonstration purposes.
- Battery charging is not permitted inside the facility.
- Combustible/flammable materials must not be stored beneath the display vehicles.
- Fueling or de-fueling of the vehicles is prohibited.
- Three (3) feet of clear access or aisles must be maintained around the vehicle.
- Vehicles must be a minimum of twenty (20) feet from exits or exit pathways.
- CLV Fire Marshal requires a twenty-four (24) hour fire watch near the vehicles; which can be done by hired security, an EMT or the fire department.

All vehicles must be noted on the floor plan when submitted to the Fire Marshal & is subject to the Fire Marshal's approval.
